WOMENS COLLECTION
FALL 2012

After years of development, Cotton Citizen was founded in a premier Los Angeles dye house. Born from a desire to bring the world premium garments using entirely unique dye processes, Cotton Citizen has evolved from a t-shirt to a complete collection of men's and women's luxury basics and fashion pieces.

At Cotton Citizen we believe that fashion, style, and comfort are not mutually exclusive. Our garments combine luxurious fabrics with eye-catching silhouettes and superb fits. We take great care in selecting every fabric we use. Each season we test an abundance of fabrics selecting only what works best for our garments. We blend our innovative dye processes with an extensive color palette to give our pieces their unique look. Our garments are processed individually by hand resulting in one-of-a-kind pieces that cannot be replicated. We test each color and wash as many times as it takes to perfect it. Every step of our manufacturing process, from design to production, takes place in Los Angeles.

Cotton Citizen takes great pride in the unique and distinct artistic elements of their garments.

Comfort. Fit. Style.
